DAN HOANG CHAMPION

Software Engineer

SUMMARY

I am a passionate Full-Stack Developer with over two years of professional experience, specializing in React & Web development. In my free time, I expand my creativity and skills by working on innovative projects with the latest technologies.

EXPERIENCES

Software Engineer
Amadeus IT Group

📅 Aug 2023 - Present | 📍 London, UK | 🖥 Angular, C++

- Acted as the primary technical contact for six self-service check-in products, resolving issues and ensuring on-time delivery of high-quality solutions.
- Managed customer interactions and critical incidents with speed and precision, maintaining service excellence.
- Collaborated cross-functionally to deliver integrated features and promote knowledge sharing across teams and departments.
- Gained hands-on experience in infrastructure, system design, and software engineering best practices, writing optimized, efficient code and implementing unit and regression tests within a large multinational environment.

Software Engineer Intern
Waters Corporation

📅 Jul 2022 - Sep 2022 | 📍 Newcastle Upon Tyne, UK | 🖥 React, Python

- Created a convenient web app service which allowed Waters employees to view lab processes from outside the research lab and view updates via email & mobile notifications.
- Collaborated with 2 other interns and a product owner using Agile (Scrum) methodology, including weekly Sprint reviews and daily Stand-ups.
- Developed good software engineering practices such as Continuous Integration and Deployment through GitHub actions, which ran end-to-end, unit and accessibility testing and deployed to both development and production builds on Azure.

Creator & Sole Developer
Quaky Gifts

📅 Jan 2025 - Present | 📍 London, UK | 🖥 React, Next.js, Supabase

- Designed and developed Quaky, a quirky gift curation platform enabling users to discover unique and unexpected gift ideas.
- Implemented full-stack functionality including dynamic routing, product filtering, SEO optimization, affiliate link tracking, and responsive UI/UX across devices.
- Planned and prototyped future features such as AI-powered gift recommendations, newsletters, and multi-language/currency localisation to improve personalization and user reach.

EDUCATION

BSc Computer Science (First-class honours)
Durham University

📅 2020 - 2023 | 📍 Durham, UK

International Baccalaureate
The British International School

📅 2018 - 2020 | 📍 Ho Chi Minh City, Vietnam
